About the project

Adult Video Streaming is a multinational, user-generated, ad-supported, Video Sharing Website. Its 3 million visitors per day, and 1 million videos per day, make it the 3rd most popular adult website in the world.

Our mission was to create a mobile application that would be as easy to use as the original, but with a more modern look and feel. We wanted to make it easier for users to find what they are looking for, by making the content available in lists, by adding a search function, and by making it possible to filter the content by categories, by adding a search function, and by making it possible to filter the content by categories, by adding a search function, and by making it possible to filter the content by categories.

We also made the Top Rated, Most Popular, Most Recent, Most Viewed, Most Favorited, Most Discussed, Most Linked, Most Commented, Most Recently Featured, Most Recently Added, Most Recently Updated, Most Recently Viewed, Most Recently Favorited, Most Recently Discussed, Most Recently Linked, Most Recently Commented, Most Recently Rated, Most Recently Tagged, Most Recently Uploaded, Most Recently Edited, Most Recently Deleted, Most Recently Moderated, Most Recently Flagged, Most Recently Reported, Most Recently Banned, Most Recently Unbanned, Most Recently Suspended, Most Recently Unsuspended, Most Recently Warned, Most Recently Unwarned
